SOAR AAM Report - July Update

Strategic Outlook and Assessment for Regional Advanced Air Mobility

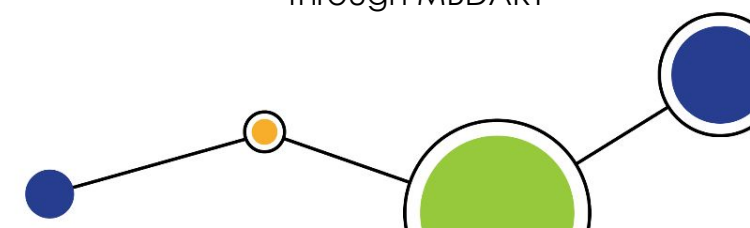

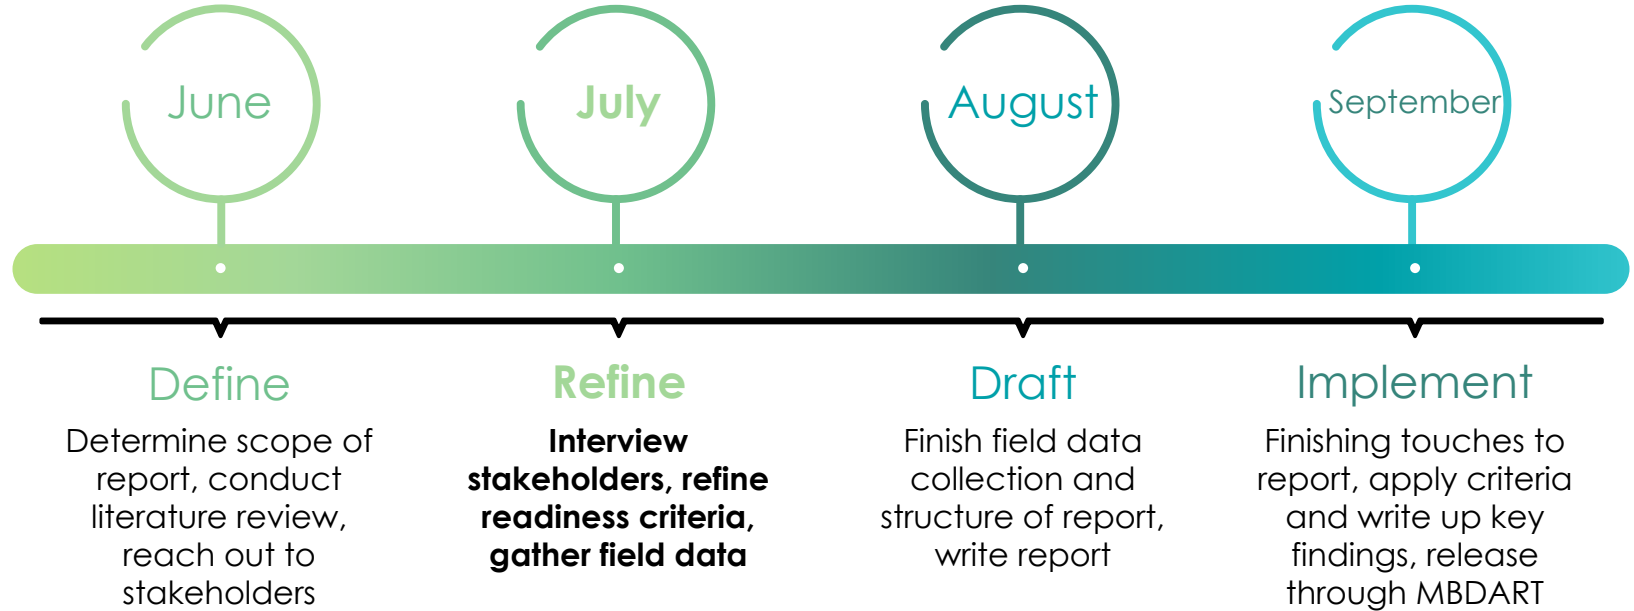

Objective

To quantify **infrastructural and logistical readiness for AAM** at general aviation airports in the Monterey Bay Region

By having a **data-driven, holistic assessment of near-term AAM readiness**, regional stakeholders can identify the most promising areas for industry expansion and **close the knowledge gaps between airports and OEMs**

Timeline

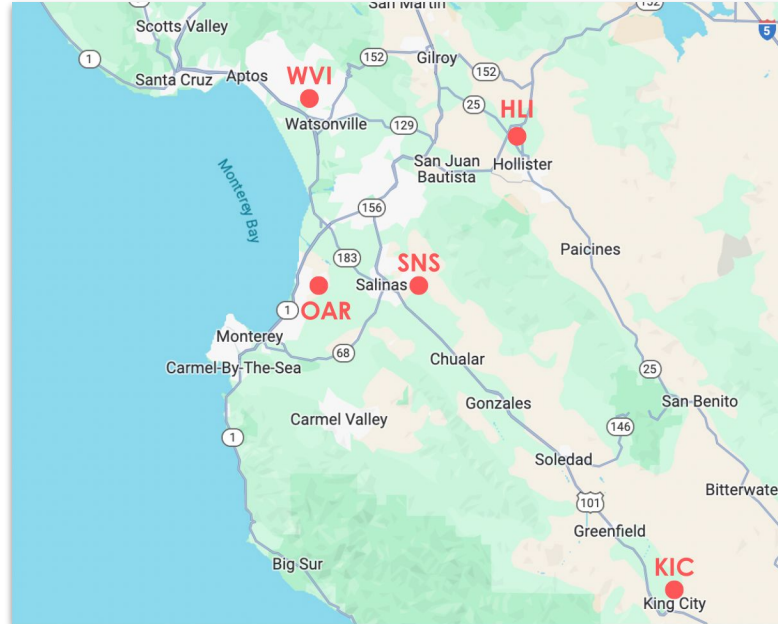

Accomplished in July

- Interviewed Infrastructure Operations Lead at Archer and Infrastructure Manager at Skyports
- Performed site visit to SNS and WVI and interviewed airport managers
- Began synthesizing literature into a background section for stakeholders

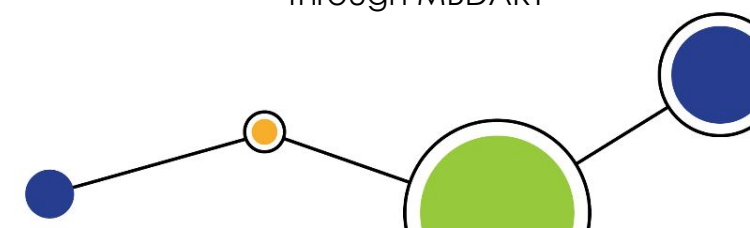

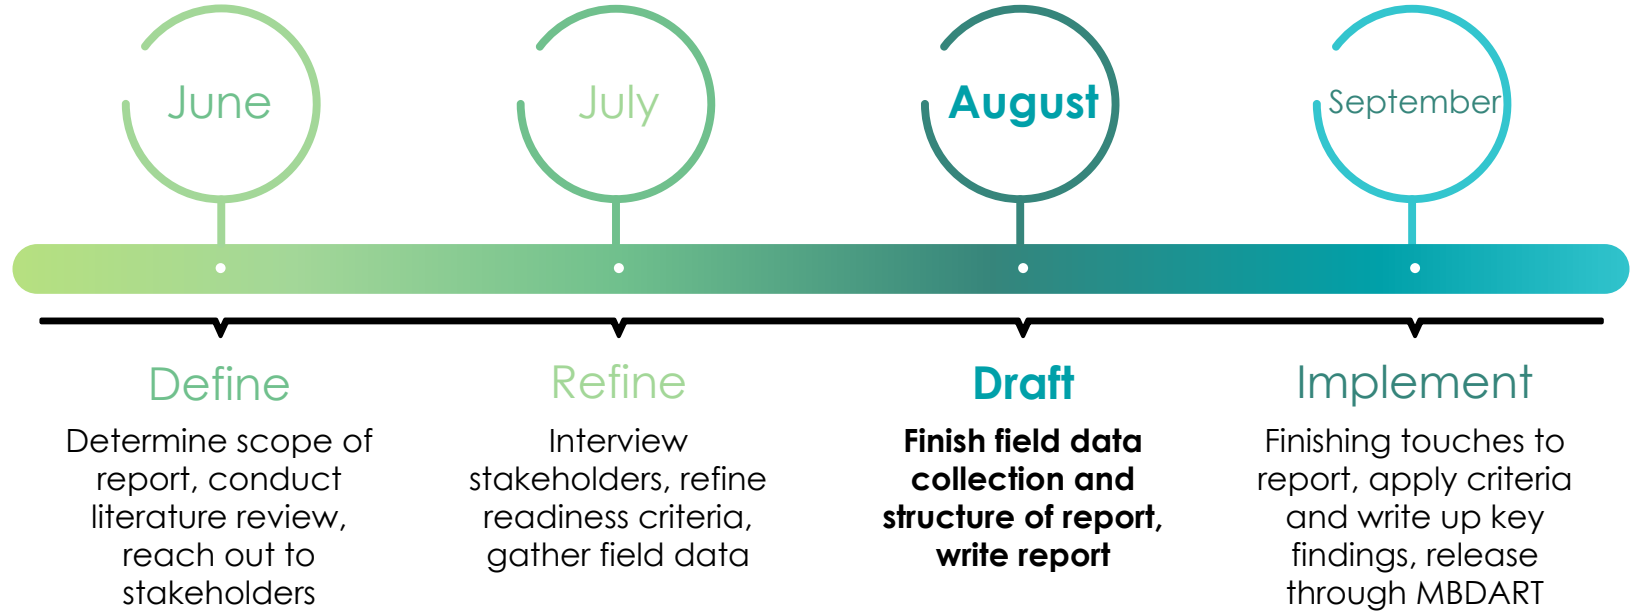

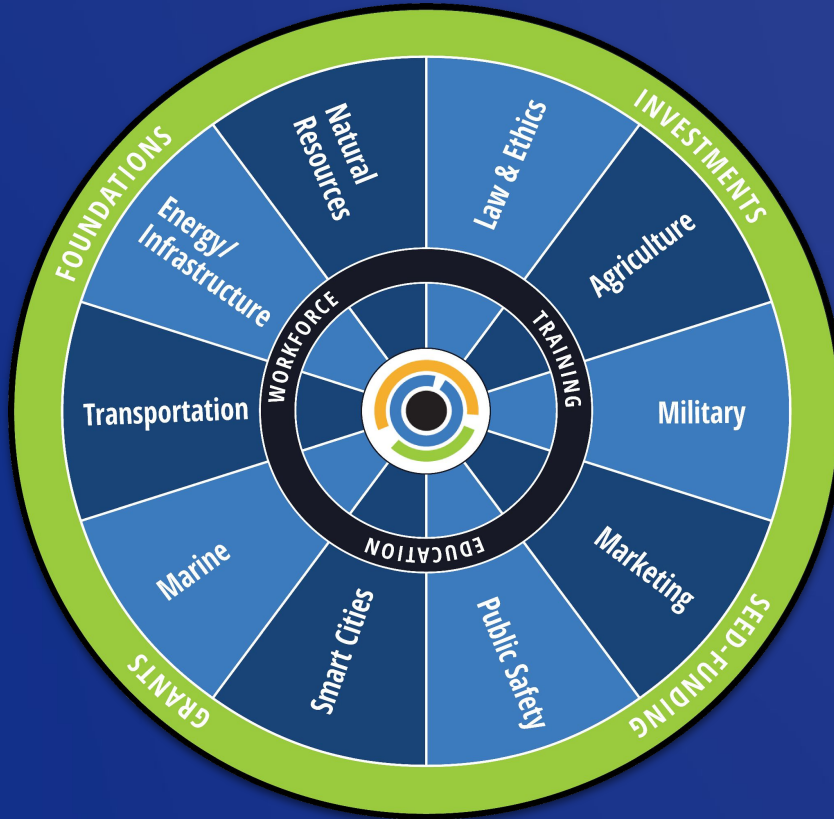

Planned for August

- Interviews with Joby, Wisk, Pivotal
- Make site visits to OAR, CVH, KIC
- Incorporate field data into report

Timeline

Thank You!
