SOAR AAM Report - August Update

Strategic Outlook and Assessment for Regional
Advanced Air Mobility

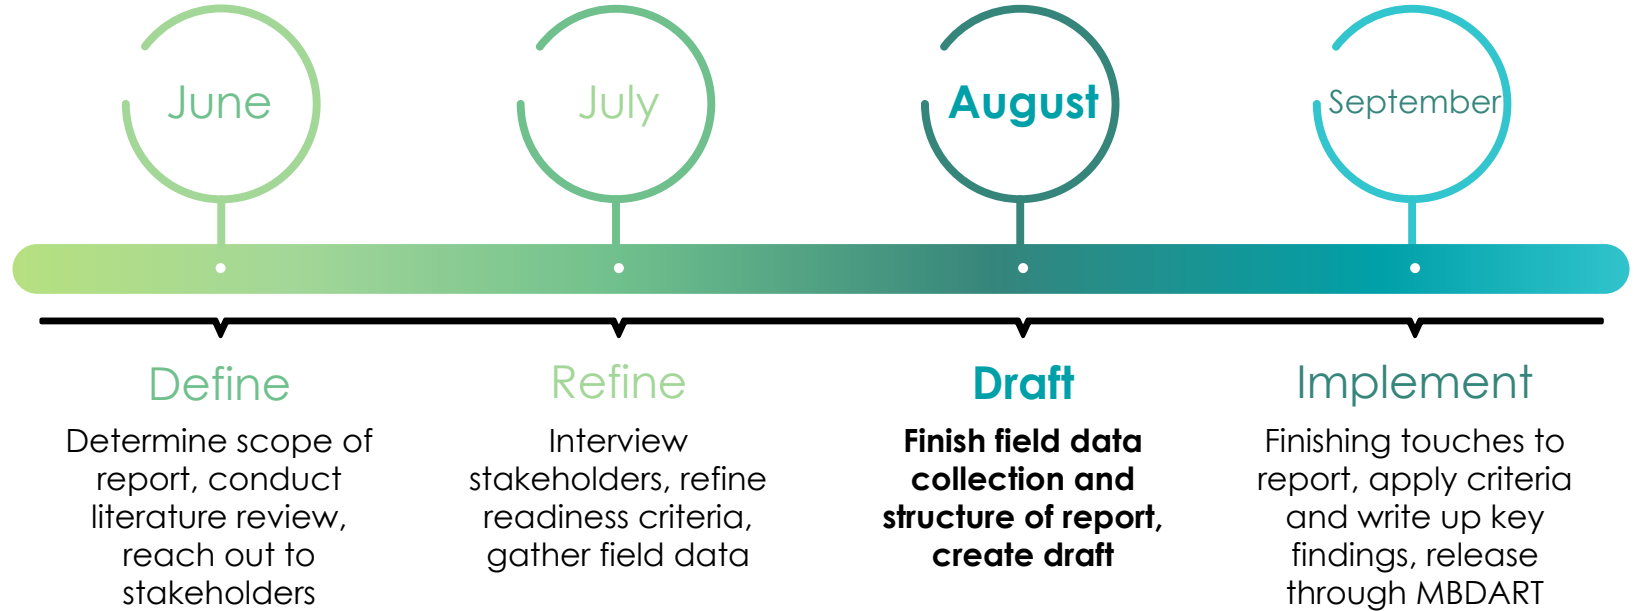

Objective

To quantify **infrastructural and logistical readiness for AAM** at general aviation airports in the Monterey Bay Region

By having a **data-driven, holistic assessment of near-term AAM readiness**, regional stakeholders can identify the most promising areas for industry expansion and **close the knowledge gaps between airports and OEMs**

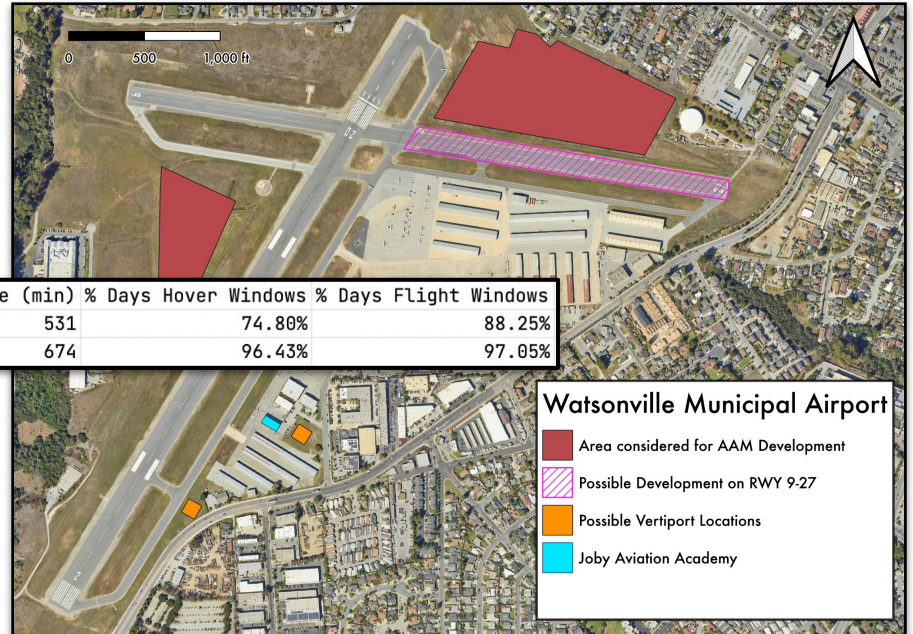

Timeline

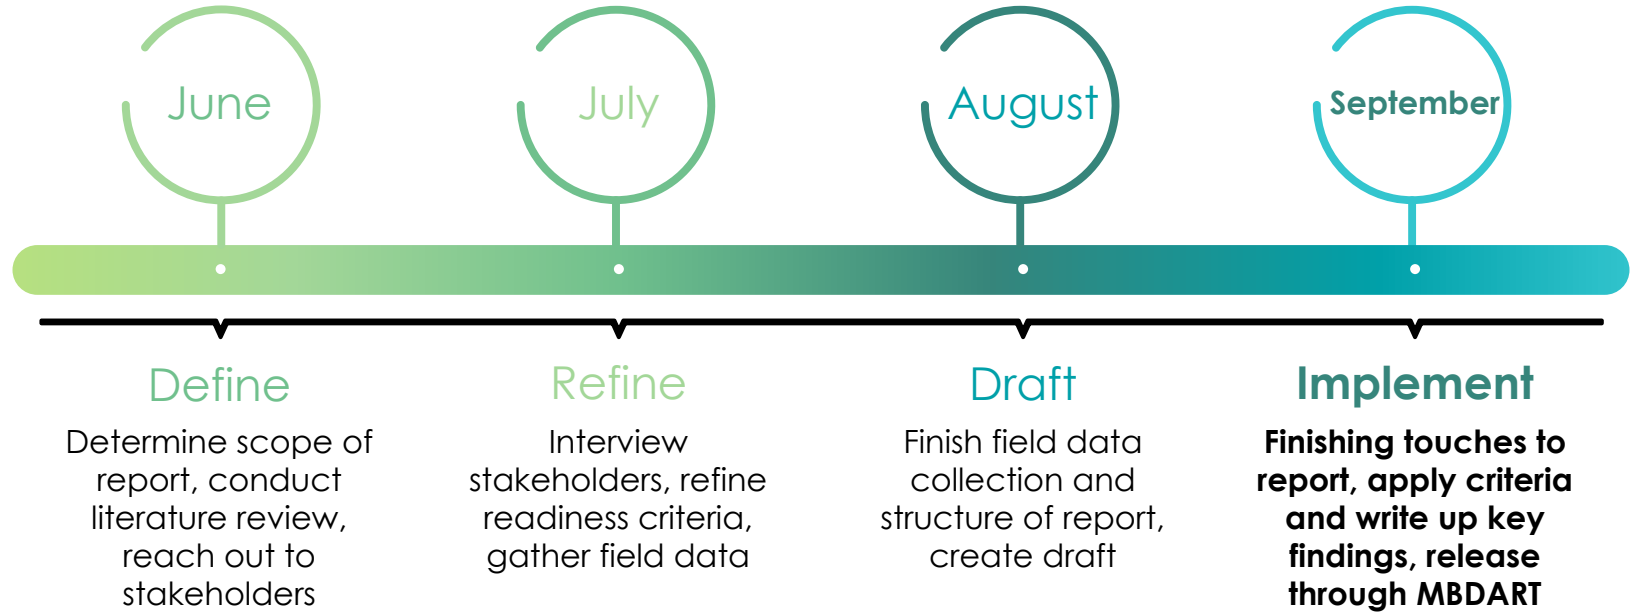

Accomplished in August

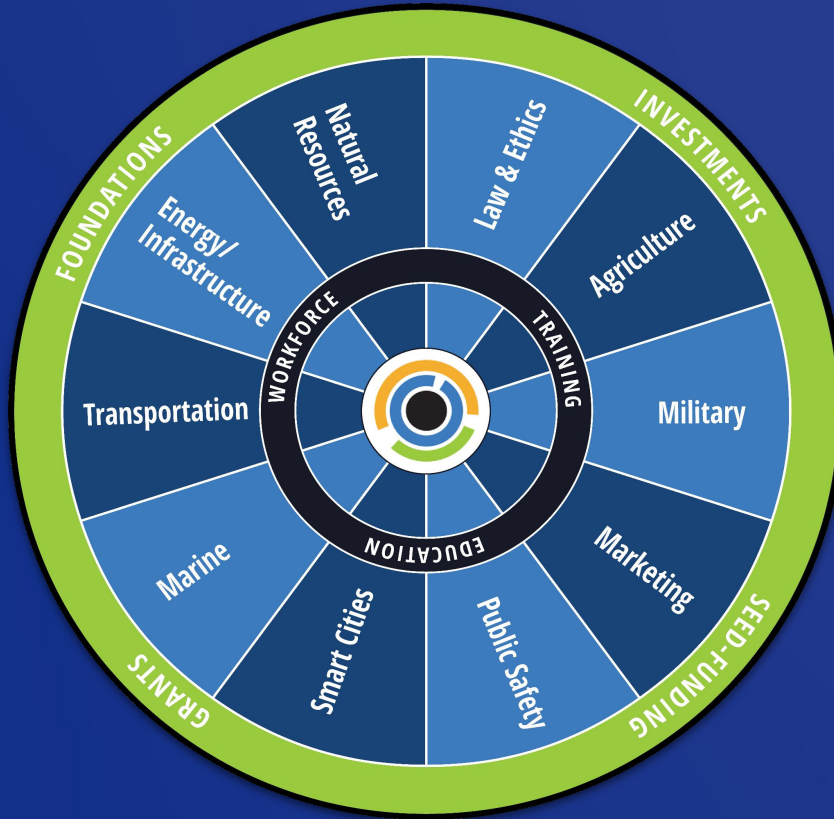

- Made site visits to all target airports and interviewed airport managers
- Body of report completed
- Created a tool to analyze weather compatibility for flight testing at airports

Airport	Mean Hover Time (min)	Mean Flight Time (min)	% Days Hover Windows	% Days Flight Windows
SALINAS AIRPORT, CA US	202	531	74.80%	88.25%
HOLLISTER MUNICIPAL AIRPORT, CA US	497	674	96.43%	97.05%

Timeline

Thank You!
