

## Why You Should Partner with the LIFT Summit

The **2026 LIFT Summit**, hosted by [DART](#) in **Monterey, CA, March 31–April 2, 2026**, is the premier gathering for leaders shaping the future of a low-altitude economy. The Summit offers the **insights, connections, and technology exposure** necessary to **accelerate innovation, scale operations, and stay ahead** in a rapidly evolving market.

### Partnering the 2026 LIFT Summit Provides OEMs with:

- **Direct Access to Decision-Makers:** Connect with regulators, infrastructure planners, fleet operators, and key industry stakeholders shaping the AAM ecosystem.
- **Actionable Insights:** Learn from panels, workshops, and case studies covering workforce strategies, regulatory pathways, infrastructure planning, and commercialization opportunities.
- **Networking Opportunities:** Engage with industry innovators, technology developers, investors, and supply chain partners to explore collaborations, partnerships, and growth opportunities.
- **Hands-On Technology Exposure:** Experience the latest aircraft, software, and infrastructure solutions during Expo Day, including immersive bus tours and live flight demonstrations from leading OEMs.

### Expected Attendees Include:

- Industry Leaders & OEMs
- Investors & Financial Partners
- Government & Regulatory Stakeholders
- Military & Defense Representatives
- Workforce & Labor Organizations
- Academic & Research Institutions
- Nonprofits & Foundations / Community-Based Organizations (CBOs)

Showcase your technologies on Expo Day and elevate your visibility with an Opening Reception sponsorship, connecting directly with key decision-makers.

***Join us in showcasing the future of low-altitude innovation.***
